

Register for Revenue Online

The Colorado Department of Revenue (CDOR) has created a system call Revenue Online that allows you to pay any state taxes (income, payroll, sales, etc.) via electronic funds transfer (EFT). This system also allows us to communicate with the CDOR on your behalf.

How to Sign Up for Revenue Online:

1. Visit www.colorado.gov/revenueonline. The main menu will come up with three options: Individual, Business, and IRP. Click on either Individual or Business depending on which account you are wanting to set up.
2. On the Individual or Business Home Page, under AccessAccount click on the "sign up" link.
3. You will need to have the most recent tax return (income, sales, etc.), the federal adjusted gross income, refund amount or estimated tax payment amount in order to answer security questions that are required to set up the account. Follow the instructions provided and select submit on the left hand side of the screen. **If you are a zero filer, you will need to request to receive a letter ID.** To do this, click on the link "Click here to receive a Letter ID". Here you will need to enter in the ID type. For individuals, it will be your social security number and for businesses it will be the FEIN. After you request a letter ID, you will receive a letter in the mail to the current address that is on the account. This letter will have the letter ID number needed to finish setting up your account.
